

Covenant Foundation's
Seniors' Month

The Difference You Made this Seniors' Month

Covenant
Foundation

You're helping transform seniors' care across Alberta.

Thanks to your generosity, Seniors' Month raised more than \$104,000 to enhance seniors' health and well-being.

As Alberta's population ages, more seniors are living with complex health needs that require not only excellent medical care, but also comfort, connection and dignity.

At Covenant Foundation, we partner with our community to help make that possible. Through your generosity, we're enhancing care spaces, investing in state-of-the-art equipment and supporting specialized programs that reduce isolation, foster meaningful connections and improve quality of life.

Seniors' Month is one of the ways our community comes together to transform seniors' care.

This year's campaign included a 50/50 raffle, online giving and community fundraising events, raising more than **\$104,000** to enhance seniors' health and well-being.

On behalf of the seniors we serve, thank you.

Every Seniors' Month gift helps create more compassionate, person-centred care experiences for senior patients and residents, their families and the care teams who support them.

"It was exciting to see our patients, residents, families and staff come together to recognize and celebrate seniors. The support shown throughout Seniors' Month reminds us of how important connection and community are in helping seniors maintain their health, well-being and sense of belonging."

Katie Kallechy
Program Manager
Community Geriatric Psychiatry, Covenant Health

Your generosity was part of something bigger.

Alongside volunteers, corporate partners and communities across Alberta, you helped create moments of joy and connection throughout Seniors' Month.

From a popcorn party in St. Albert to a concert in Medicine Hat and a community BBQ in Mundare, Albertans across Covenant communities came together to support our seniors.

At Covenant Foundation, we bring people together to enhance the healthcare experience. Through giving, volunteering and community partnerships, we help create welcoming, engaging and compassionate experiences for the seniors we serve.

Our partners from Alberta Blue Cross helped enhance the garden at St. Joseph's Auxiliary Hospital, creating a welcoming space where residents can enjoy the summer outdoors.

Residents at the Edmonton General Continuing Care Centre built birdhouses alongside volunteers from Clark Builders, an activity that helped foster creativity, connection and a sense of accomplishment.

Covenant Foundation staff and volunteers from Clark Builders helped residents at the Edmonton General Continuing Care Centre build birdhouses, creating moments of connection and companionship.

The Mundare community came together for a BBQ at Mary Immaculate Care Centre where residents, families and neighbours had the opportunity to connect and celebrate Seniors' Month.

Laughter and friendly competition were part of the celebration as Eddy, a resident at the Edmonton General, joined in the Seniors' Month festivities.

Volunteers from Bird Construction helped prepare the Edmonton General rooftop garden for summer, creating a welcoming outdoor space for residents and their loved ones to enjoy together.

Your generosity helps carry this work forward.

These are just a few examples of initiatives made possible through past Seniors' Month support.

Thanks to your generosity, we will continue investing in programs, equipment and innovations that enhance seniors' lives.

Music therapy at Dulcina Hospice in Calgary is helping ease anxiety, promote comfort and enhance quality of life for seniors receiving palliative care.

Enhanced gardens, gazebos and family lounges at sites such as St. Joseph's Auxiliary Hospital, St. Joseph's Home in Medicine Hat and Villa Caritas are providing residents with welcoming spaces to spend quality time with their loved ones.

At Red Deer's Villa Marie and other sites, residents like Rose are benefitting from the ABBY Ambient Platform, technology that encourages cognitive engagement and interaction for seniors with dementia.

Specialized Centrella beds at Foyer Lacombe and other palliative care sites are elevating the standard of end-of-life care by providing greater comfort and safety to residents.

Your Seniors' Month impact:

\$104,000
raised

16
Alberta communities
supported

55
seniors' care initiatives
funded

A special thank you to our sponsors:

Thank you for supporting our seniors.

The impact of your generosity extends far beyond this campaign.

Together, we're helping Alberta seniors age with dignity
and improve their quality of life through compassionate,
innovative care.
