*In support of:*

**WHEN A MENTAL HEALTH CRISIS OCCURS.  
WHEN BLOOD CAN'T REACH THE HEART.  
WHEN ACCIDENTS HAPPEN.**

Each year, the Misericordia emergency department sees more than 50,000 patient visits - twice the capacity it was designed to support.

Our patients come from across the Edmonton area and Northern Alberta at a time of urgent need and great vulnerability.

# ROOM TO CARE. TIME TO GIVE.

**We ask you to join together with Covenant Health, Alberta Health Services, and generous members of our community, to construct and enhance a new emergency department at the Misericordia Community Hospital.**

The current department was built in 1969 and was designed to accommodate 25,000 patient visits annually. A lot has changed over the last 50 years - a growing population with evolving demographics has outgrown the physical space, and revolutionary advancements in technology have changed how we care for patients. Now the emergency department must change, too.

Our compassionate staff have been innovative in making the best use of space and providing the highest quality care they can, but aging infrastructure challenges their efforts. We're building the modern, state-of-the-art emergency department our community needs and deserves. We're making room to care. Now is the time to give.

**EFFICIENT | WELCOMING | WARM | SAFE**

# WHEN A LIFE IS ON THE LINE, OUR **MISERICORDIA EMERGENCY DEPARTMENT** IS THERE.

To provide the compassionate care they need and deserve, we require a space that not only includes the tools and technology to provide the highest quality of care for the whole person but also offers patients safety, comfort, privacy and dignity during their stay. Our new Misericordia emergency department will have room to care for our most vulnerable patients...

## **MENTAL HEALTH & ADDICTIONS**

Individuals with mental health concerns and addictions will receive the unique care they require in a space designed with safety and comfort in mind.

## **SENIORS**

The new department has been designed to increase seniors' comfort level and understanding of their care journey.

## **PATIENT FAMILIES**

Private discussion rooms will offer patients, families and care providers a quiet area to discuss sensitive matters and make difficult decisions. A new family space will give loved ones a private, comforting space to gather during times of stress and traumatic experience.

## **CHILDREN**

Kid-friendly interactive play area in the patient arrival area and private rooms to enhance the family experience.

## WHEN WILL IT OPEN?

The new space is expected to open its doors in 2023. During construction the existing emergency department will remain open to ensure patient care is uninterrupted.

Since announcing the new emergency department in the summer of 2018, the planning team has designed a patient-centered, state-of-the-art space to handle 60,000 patient visits annually. Based on leading research, best practices and collaboration of staff and patients, the new department will better support care provided at the hospital.

## WHERE WILL IT BE BUILT?

The new emergency department will be built on the west side of the existing Misericordia Community Hospital and will nearly triple the footprint of the current emergency department.

## WHAT WILL IT COST?

The Government of Alberta has committed funding to build the new emergency department. However, to ensure our community has the modern and efficient emergency department it needs and deserves, \$4 million in donor funding is required. Support from our donors will not support bricks and mortar. The funds will provide enhancements to programs, services, and technologies to ensure our patients continue to receive the highest quality of professional, compassionate care.

## HOW YOU CAN HELP

By providing financial support for the redevelopment of the Misericordia emergency department, you will help enhance the care provided to the tens of thousands of patient visits each year.

- Your support will comfort an upset child worried about their loved one.
- Your support will allow families the room and privacy to make decisions about their aging parent's health.
- Your support will give staff the quiet space to cope with traumatic stressors.
- Your support will provide a mental health patient the calm environment they need.
- Your support will keep health care providers trained and prepared for any situation.
- Your support makes room to care.

# ROOM TO CARE. TIME TO GIVE.

Join us in the construction and enhancement of the Misericordia Community Hospital emergency department our community needs and deserves. Join us in making room to care for all our patients.
